

Industrial Visits - ECE

Place: Arkay IBPIL gas power plant, Rameswaram

Date : 11/10/22

Class: IV / ECE

Place : Dhansar Energy Private Limited, Tirunelveli

Date :17/11/22

Class :IV / ECE

Place : Vikram Sarabhai Space centre, Thiruvananthapuram
Date :15/03/23
Class :IV / ECE

Place: Siemens CoE in Manufacturing, NIT, Trichy.
Class: III / ECE

Place : Arkay Power Plant, Ramanathapuram.

Date : 25/04/23

Class : II / ECE

Place: District Science centre, Tirunelveli.

Date : 09/11/22

Class : II / ECE

Industrial Visit Report

Academic Year: 2022-2023

Batch:2021-2025

Year: II

Date: 19.02.2023

Semester: IV

Number of Students: 80

Number of Faculty: 4

REPORT ON INDUSTRIAL VISIT

Place of visit: K-NILA IT solutions, Coimbatore.

G-Mail: info@knila.com

Date: 19th February, 2023.

On the 19th of February, 2023, 80 students of our batch, second-year B.Tech Information Technology along with four faculty members of Velammal College of Engineering and Technology, visited KNILA IT solutions in Coimbatore, Tamilnadu. The purpose of the visit was to give the students a real-life experience of working in a software company, introduce them to the various opportunities that are available in the market, and provide them with a deeper understanding of the software development process.

The software company, KNILA, is housed at Mohan business park, 3rd floor, opposite SNS Academy in Vellakinar Village, Coimbatore. The US-based company is a holistic software development organisation which offers a wide range of software solutions like Enterprise resource planning (ERP), customer relationship management (CRM), eCommerce, Computer-aided process planning (CAPP), Mobile and web applications, UX/UI Design, and Search Engine optimisation (SEO).

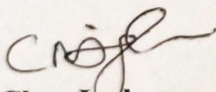

KNILA IT SOLUTIONS

We were received warmly by Ms M. Kousalya, the team leader (TL) and guided to a conference hall, where we were given an overview of the company's history, mission, and values. The TL also briefed about the software development process and different projects they have come across as a service and product-based company.

The visit provided a glimpse into the company's well-structured development process, emphasizing agile methodologies and a meticulous approach to quality assurance and testing. The organizational structure highlighted cross-functional teams working seamlessly, fostering a culture of collaboration and effective communication. Security measures were paramount, ensuring the integrity and confidentiality of software and data. Despite industry challenges, the company exhibited a proactive stance through innovative solutions and a forward-thinking mindset. This industrial visit has been instrumental in deepening my understanding of software development practices and the intricacies of a leading software company's operations.

One of the swiftly growing platforms, Full stack development, was introduced to us during the discussion. Some of the notable observations and learnings included in the meeting were client-server management, important scripting and programming languages, Database management and maintenance. It was a great learning experience for us, as we got to see the practical applications of the software development concepts we have learnt in our academics. We also had an interactive discussion at the end, through which we could ask questions and have a two-way conversation.

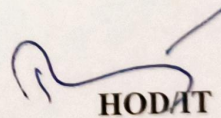

In conclusion, the visit to K-NILA IT solutions was a valuable learning experience. We could gain a deeper knowledge of the concepts thought in our classes. The visit also gave us a glimpse into the challenges and opportunities in the IT industry, and the importance of continuous learning and professional development. We are grateful for the chance to visit the software company and would like to thank KNILA for their hospitality, for providing us with an enjoyable learning experience and our college for the opportunity.
